27 September 1988

MEMORANDUM FOR: Director, Foreign Broadcast Information Service

FROM:

[redacted]
Chief, Analysis Group

STAT

SUBJECT:

Recommendation for Quality Step Increase -
[redacted]

STAT

1. For over a year, [redacted] has performed his duties and met new challenges in a consistently excellent manner. As the only AG analyst working on Poland, he has been challenged merely to keep up with the press of events in a country that has seen an escalating internal crisis since early last year. During this period, [redacted] has written numerous articles on developing events that have probed below the surface to uncover underlying trends in the Polish communist party and society and made unique contributions to the intelligence community's understanding of the situation. In particular, his analysis report of March and Trends articles of 18 May, 8 June, 20 July, and 24 August have traced the Polish government's strategy in dealing with growing unrest. During the same period, he has also followed closely and written articles on Polish-U.S. and Polish-USSR relations.

STAT

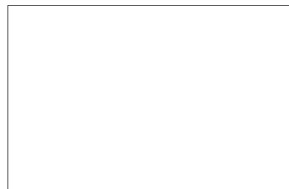

2. In addition to his analytic contributions, [redacted] has served as acting chief of the East Europe branch during the absence of the chief. In that capacity, he has edited articles on a variety of East European topics and provided guidance to junior analysts about methodological and practical questions.

STAT

3. In recognition of his sustained excellent performance under especially challenging circumstances, I recommend that [redacted] be awarded a quality-step increase.
